

The City of Kimball is soliciting proposals to repair holes in the geomembrane at the City landfill liner. The holes are located on the edge of the liner and were created by fence posts being driven into the ground. Please see the attached description.

You are invited to submit a proposal to make the repairs to the liner. Please include in your proposal:

- A brief history of your firm,
- An expected time frame when the repairs will be completed,
- A proposed cost, and
- A copy of your insurance.

Please submit your proposal to:

City of Kimball  
223 S. Chestnut Street  
Kimball, NE 69145

Proposals are due no later than 3 p.m. on June 21, 2019, Questions may be addressed to Dan Dean at [ddean@kimballne.org](mailto:ddean@kimballne.org) or (308) 235-3639.
